The Handling Equipment Shop

Welcome to the latest issue of the **Handling Equipment Shop**.

» The premier name in materials handling...

In this issue you will see our latest **WARRIOR** products. Increased derivatives on hand pallet trucks and lift tables give you even more opportunity to solve those materials handling applications. We have audited all of our suppliers and can guarantee that all the **WARRIOR** products are of high quality and value for money.

We now also have the ability to manufacture "bespoke" handling equipment. If you have the opportunity, give us a call, we'll help you offer a "bespoke" solution.

Try us for

As we specialise in TRADE SUPPLY we also offer our commitment to:

- ▶ **WARRIOR** Hand Pallet Trucks
- ▶ **WARRIOR** High Lift Pallet Trucks
- ▶ **WARRIOR** Stainless and Galvanised Trucks
- ▶ **WARRIOR** Platform Trucks
- ▶ **WARRIOR** Scissors Lift Tables Mobile and Static up to 8000 g
- ▶ **WARRIOR** Manual Stackers
- ▶ **WARRIOR** Work Positioners
- ▶ **WARRIOR** Reel Positioners
- ▶ **WARRIOR** Powered Pallet Trucks
- ▶ **WARRIOR** Powered Stackers
- ▶ **WARRIOR** plus Powered Stackers
- ▶ **WARRIOR** Drum Handling
- ▶ **WARRIOR** Load Movers
- ▶ **WARRIOR** plus "SPECIALS"
- ▶ **MARIOTTI** Micro Forklift

- ▶ 99% of trucks are ex stock
- ▶ Delivered prices
- ▶ Full ON SITE 12 months parts & labour warranty
- ▶ UK Mainland only
- ▶ No quibble 7 day return
- ▶ Fully compliant with European directives
- ▶ Certificates of conformity
- ▶ 90% spare parts are off the shelf
- ▶ Volume discounts off trade prices

▶ Front Load Wheel	Ø 550 x 132mm
▶ Steering Wheel	Ø 265 x 80mm

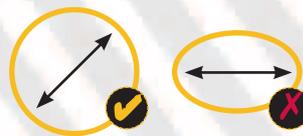

WARRIOR CE

The new **WARRIOR** WRTT12 Rough Terrain Pallet Truck is ideal for outdoor applications where a conventional industrial truck just won't do! Mounted on large pneumatic tyred wheels all round, the truck just rides over undulating surfaces you find in some applications. With a capacity of 1200kg and an inside straddle width of 1277mm the WRTT12 will handle most pallets. Ideal for garden centers, building sites, farmyards and all other rough terrain applications.

WARRIOR Reel/Cylinder Carrier

- ▶ Capacity 2000kg
- ▶ 4 standard sizes, others to order
- ▶ Greasing points
- ▶ Overload / pressure relief valve
- ▶ Ideal for handling: paper reels, textile rolls, cable drums
- ▶ Tandem rollers
- ▶ Nylon steer wheels

High Lift Pallet Trucks

WARRIOR Manual High Lift Pallet Truck

HEAVY DUTY

- ▶ Capacity 1000kg / 1500kg
- ▶ 4 variants
- ▶ Lift height 800mm
- ▶ Lowered height 85mm
- ▶ Quicklift below 250kg
- ▶ Adjustable stabilisers

WARRIOR high lift pallet trucks are for use with an open bottom pallet and through their design, help to reduce repetitive strain back injury that can occur when bending down unloading a pallet.

They are extremely useful at the end of production lines and to use as a work bench.

WARRIOR Electric High Lift Pallet Truck

Manual and Electric lift / lower for precise positioning

- ▶ Capacity 1000kg
- ▶ 2 sizes
- ▶ Greasing points
- ▶ Overload/pressure relief valve
- ▶ Ideal for handling: non standard, wide loads
- ▶ Tandem nylon rollers
- ▶ Nylon steer wheels

All **WARRIOR** High Lift Pallet Trucks will work happily with open bottomed pallets eg europallets and stillages. They will not work with "Full perimeter Board" Pallets. Scissor pallet trucks aid manual handling and are a useful truck to have around any factory.

The **WARRIOR** range of Powered Pallet Trucks are rugged industrial trucks which can easily cope with the arduous conditions found in busy factories and warehouses.

The compact design combined with the new technology makes the **WARRIOR** ideal for narrow, cramped aisles. The shortest head length in the market permits superb maneuverability. Smooth controls combined with a powerful electromagnetic drive unit make light work of everything. Supplied with batteries and chargers to suit.

WARRIOR Heavy Duty Full Electric Rough Terrain Pallet Truck

The **WARRIOR** Heavy Duty Powered Pedestrian Rough Terrain Pallet Truck offers value and versatility for general rough terrain applications. The Heavy Duty 1200kg capacity coupled with strong off road capability due to the large diameter pneumatic tyred wheels ensures the truck is suitable for operation in high intensity applications where power and control are needed most! Typically used for pallet handling by construction, agricultural and rental companies they eliminate the requirement for a full rough terrain forklift!

WARRIOR Heavy Duty Powered Pedestrian Rough Terrain Pallet Truck offers a great deal in its specification.

- ▶ Compact and very manoeuvrable
- ▶ Curtis programmable drive controller
- ▶ Solid construction
- ▶ Push button lift & lower

Adjustable Pallet Trucks

Yellow Jack-It Adjustable Hand Pallet Truck

The only pallet truck in the world with manually adjustable forks, requiring no tools! Using the ergonomic hand crank, adjust forks from 690mm to 330mm. The **Yellow Jack-It** replaces your current fleet of pallet trucks and leaves you more space in the warehouse or delivery truck.

With an easy to crank handle, the **Yellow Jack-It** forks slide from side to middle, quickly adjusting to whatever size you need. Half pallets, full pallets, side entries, OSHA pallets, or odd size item, the **Yellow Jack-It** can move it – simply adjust the forks and GO!

- ▶ **Adjustable forks** - Using the patented technology, adjust the forks from 690mm inches to 330mm in seconds!
- ▶ **German sealed pump kit** - Unique double seal design ensures long life span. Unique pump technology allows for controlled descent speed regardless of load weight.
- ▶ **Heavy duty, reinforced forks** - Designed for strength and durability. Ensures 25% more strength than a standard fork. The truck can be used frequently in the toughest conditions.
- ▶ **Ergonomic handle** - Ergonomically designed handle offers a comfortable grip in all temperatures and provides more lifting height per stroke than a regular handle.
- ▶ **Self-lubricating bearings** - Ensures long life.
- ▶ **Additional entry and exit rollers** - Offers easier entry and exit from pallet and protects load wheels.
- ▶ **Hand control** - Easy to operate, 3-function hand control (raise, neutral, lower) for smooth control.
- ▶ **Safe** - The Yellow **Jack-It** adjusts to the size you need – avoiding the need to balance loads or strain your back.

WARRIOR Premium Work Positioning Stacker

The **WARRIOR** Premium Work Positioning Stacker is the perfect bridge between the conventional manual high lift pallet truck and a manual hand hydraulic stacker truck. High lift pallet trucks have a tendency to “lock down” over a lift height of 400mm. This may not be ideal in certain circumstances such as work positioning or van loading and this is where the **WARRIOR** comes into its own as you can manoeuvre the unit when fully raised.

Strong and very robust, the WRVV10 series comes with lift heights of 900mm and 1600mm. Lift is by a single cylinder/hydraulic pump unit. Manoeuvrability is made easy thanks to the proximity of ergonomic pushing handles and a sturdy pulling handle. The units are mounted on guarded polyurethane wheels and rollers all round therefore aiding a smooth and cushioned ride and are fully CE compliant. As usual, a full 12 months on Site parts and labour warranty applies.

WARRIOR MiniStacker

Our MiniStackers are excellent for the everyday light duty work area where loads to be lifted far exceed "the manual handling directive" but do not demand a heavy duty industrial stacker. With a capacity of 400kg and 3 lift height options the MiniStackers are suitable for many internal jobs.

- ▶ Smooth operating foot pump
- ▶ Position lifting
- ▶ Overload / pressure valve
- ▶ Smart chromium plated frame
- ▶ Powder coated platform
- ▶ Smooth running braked steer wheels
- ▶ Very manoeuvrable
- ▶ CE marked and supplied with certificate of conformity

Stackers

WARRIOR Semi Electric Counterbalanced Stacker

Often a fully powered counterbalanced truck is overkill for many applications so a small semi electric counterbalanced stacker is needed. The **WARRIOR** Semi Electric Counterbalanced Stacker may be the solution.

The **WARRIOR** Semi Electric Counterbalanced Stacker is ideal in applications where the type of pallet used cannot be guaranteed. In many instances firms have a need to handle not just open ended pallets like euro pallets but a myriad of different types with full perimeter bottom boards and lateral bearers causing problems for traditional wrap over fork trucks.

General workshop handling tasks are also undertaken more easily if you can use a machine without any support or straddle legs which can often become a nuisance when trying to overcome a handling issue.

- ▶ Basic capacity of 500kg @ 400mm load centre
- ▶ Lift heights up to 3m.
- ▶ Steering handle
- ▶ Brake
- ▶ Built-in battery charger
- ▶ Ex stock delivery of most popular models.

Specials

WARRIOR Easy Roller

The **WARRIOR** Easy Roller has been designed to assist the operator by utilising leverage from the handle and transferring the effort to the main steer wheels. This allows the operator to push down on the handle and begin to move the truck with a much lesser effort than would normally be required. The controllability is such that you can even climb over small lips which would cause a normal loaded pallet truck a problem.

Direction is controlled by a foot pedal. Movement is actuated utilising a direct mechanical drive system as opposed to a friction system. The system can also be disengaged and then used as a conventional pallet truck. This system can be retro fitted to many of our other non-standard pallet trucks

WARRIOR CE

York Lifter YM250

Designed to overcome lifting problems caused by nesting roll containers with fold up bottoms! Typical of the services we can offer...We can review, design and implement bespoke handling solutions to overcome all types of handling challenges.

Powered Stackers

WARRIOR ACS Compact Powered Counterbalanced Stacker

A high quality, powered, counterbalanced stacker offering value and versatility for general workplace and warehouse applications. The **WARRIOR ACS** offers a great deal in its specification.

- 8 capacities from 800-1500kg @ 500mm load centres
- Lift heights up to 6300mm
- Tilting Forks
- EPS Powered Steering needing 1kg of force to effortlessly manoeuvre the truck
- AC programmable controller for infinite control
- AC drive motors for decreased maintenance
- Solid Construction
- Specials Available on request

- ▶ Powered steering (less than 1kg of effort)
- ▶ Zapi AC power controller
- ▶ Adjustable forks
- ▶ Load backrest
- ▶ Electro Magnetic brakes
- ▶ Reversing alarm
- ▶ Anti Pinning Button
- ▶ Horn
- ▶ Battery state meter

- ▶ Cold Store specification minus 35
- ▶ Work lights
- ▶ Overhead guard
- ▶ 400ah 24v battery
- ▶ Height / speed reducer
- ▶ Sideshift
- ▶ Full free lift
- ▶ Jibs

Drum Handling

WARRIOR Drum Handling - DrumPorter

Easy to use lifts the drum hydraulically off the floor for transportation and smoothly lowers it via a spring return knob. The simple but very effective drum porter WRDT250 makes light work when moving 205 litre steel drums around.

MODEL	WRDT250
Lifting capacity	250kg
Lifting height	345mm
Lifting per stroke	22mm
Max drum diameter	572mm
Max drum length	915mm
Max. height in lowered position	1000mm
Max. height in raised position	1215mm
Length	810mm
Width	780mm
Net weight	42kg

WARRIOR CE

WARRIOR Drum Porter with Wide Straddle

The **WARRIOR** WRDTW250 has a wide straddle to enable the unit to lift 205 Litre Drums off pallets 800mm wide i.e Europallets. The unit is exceptionally easy to operate, gliding along on large polyurethane wheels. Fitted with parking brake.

MODEL	WRDTW250
Lifting capacity	250kg
Lifting height	345mm
Lifting per stroke	22mm
Max drum diameter	572mm
Inside straddle	850mm
Outside O/A straddle	1015mm

WARRIOR CE

WARRIOR Drum Porter Override

The **WARRIOR** DRUM PORTER Override WRDTR250 has a wide straddle and a cantilevered frame which allows it to pass over a 800mm max width pallet allowing drums to be manoeuvred both on and off with ease. The unit is exceptionally easy to operate, gliding along on large polyurethane wheels. Having a combination of wide straddle and cantilevered chassis also enables the DTR250 to lift drums off corners of spillage containment units.

MODEL	WRDTR250
Lifting capacity	250kg
Max drum height	1180mm
Min drum height	910mm
Drum diameter	572mm
Inside straddle	850mm
Outside O/A straddle	980mm

Drum Handling

WARRIOR Automatic Drum Clamps for Fork Lift Trucks

WARRIOR Automatic Drum Clamps fit quickly and easily onto the forks. They are secured via hand screws. Once fitted, the drum clamp will automatically pick up, transport and deposit drums without the driver needing to leave the truck. The drums are held in position by using their own weight to tighten the arms. When deposited the arms of the clamp simply slide away from the drum. Available for Steel 205 ltr Drums in either single or double drum configuration and now the WRDG50 for Single Plastic Drums.

- ▶ Fork pockets: 50 x 140mm
- ▶ Fork pocket length: 245mm
- ▶ Fit quickly and easily on to forks
- ▶ Secured by hand screws
- ▶ Driver doesn't need to leave the truck as the drum clamp automatically picks up & deposits drums
- ▶ Drums held in position by using their own weight to tighten the arms
- ▶ Arms of the clamp simply slide away from the drum when deposited
- ▶ WRDG10,20 & 40 available for Steel 205 ltr drums either single or double configuration
- ▶ WRDG50 available for Single Plastic Drums

Drum Handling

WARRIOR Drum Stacker

The WRDS350 serves multiple purposes, solving 205ltr steel drum handling and storage issues in one. Ideally used for lifting, handling and stacking the drums, addressing simple storage issues by allowing dual height storage.

MODEL	WRDS350
Capacity	350kg
Overall Lift Height (to underside 210ltr drum)	1200mm
Overall height	2000mm
Overall Width	1146mm
Overall length	1100mm
Inside Straddle	950mm
Overall Leg Height	90mm
Net Weight	175kg

WARRIOR CE

WRDS350

WARRIOR Drum Positioner

The WRDTPL40 is a versatile Drum Stacker, in particular because it allows the operator to attach the 205ltr steel drum, lift, rotate and discharge the contents safely at height. Lift is performed hydraulically by handle and pedal and rotation mechanically via a hand wheel. Drum rollback is prevented by 30:1 ratio transfer box.

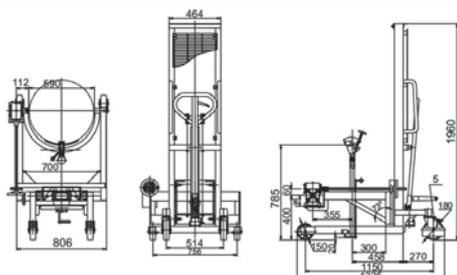

The WRDTPL40 will allow stacking of drums up to a maximum height of 1350mm providing the operator makes allowance to release the jaws. Also, due to the design of the jaw and steady mechanism it is possible to release the drum once safely in the horizontal position. The rotation can be locked in both the vertical and horizontal.

MODEL	WRDTPL40
Capacity	400kg
Overall Lift Height (to underside 210ltr drum)	1350mm
Overall height	1960mm
Overall Width	906mm
Overall length	1325mm
Inside Straddle	700mm
Overall Leg Height	150mm
Net Weight	190kg

Waste Management

WARRIOR Self Tipping Skips

WARRIOR Self Tipping Skips are industry's best tool for sorting recycling waste and environmental materials handling.

Robustly designed, reinforced and powder coated to provide maximum safety and service.

Spring pressure plates on the base of the frame actuates automatically tilting. Also available with manual tipping.

WARRIOR Self Tipping Skips have reinforcements in the right places in order to deal with arduous conditions.

- Corner reinforcements improve the stiffness of the containers
- Reinforced fork channels
- The automatic tipping function provides greater efficiency and also raises safety during the emptying at height as the skip cannot slide from the forks!
- Non-standard sizes available on request

Optional Extras:

- Swivel Castors
- Tilt lock chain
- Manual release

Forklift Truck Attachments

WARRIOR Fork Extensions

The **WARRIOR** range of fork extensions are a simple but effective way of lengthening your forks to handle longer loads safely without damaging the load. Manufactured from heavy duty steel channel they will fit on to forks up to 50mm thick. Steel retainers prevent the forks from sliding off. We recommend that you check with the manufacturer of your lift truck its capabilities when lifting at a greater load centre. Fork extensions should not exceed the length of fork to which they are fitted by more than 40%.

Load Movers

WARRIOR Safelift

The **WARRIOR** Safelift is the ultimate equipment for alleviating problem on site handling issues. It allows professional transportation of heavy and awkward loads like safes, cabinets, switchgear, vending machines, and machinery weighing up to 1800kg.

The **WARRIOR** Safelift is supplied in pairs (one for each end of the load) and when strapped together around a load (using the 5m securing straps supplied) can lift the load to a max of 250mm and then be manually propelled around corridors, around corners into lifts etc...

They can be easily transported around due to their low individual weight of 43kg. The lifting toe is fitted with a rubber covering to eliminate slippage. Units are finished in orange powder coating and zinc chromate. Mounted on non marking polyurethane swivel castors all round.

MODEL WR180B		WARRIOR SAFELIFT®

Manual Cranes

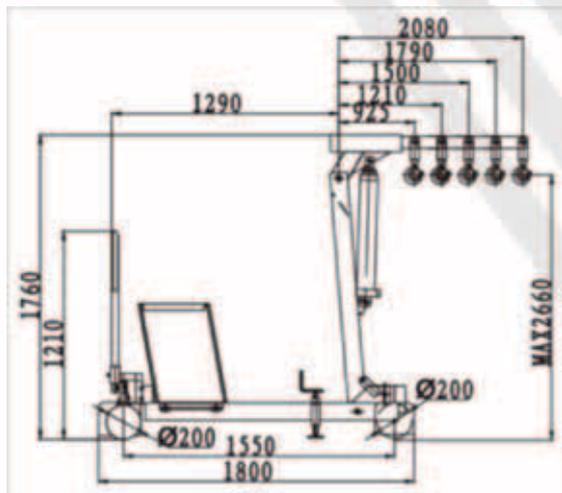

WARRIOR Manual Counterbalanced Crane

The **WARRIOR** Heavy Duty Counterbalanced Workshop Crane is free standing with 5 variable capacity settings (maximum capacity available is 550kg) afforded by its 5 position telescopic jib and heavy duty swivel hook with safety catch.

Counterbalanced floor cranes are really useful in machine shops and other manufacturing environments where access to machinery is restricted by floor level objects.

- ▶ Heavy duty counterbalanced crane
- ▶ Up to 550kg capacity
- ▶ Double acting hand hydraulic pump unit
- ▶ Heavy duty swivel hook with safety catch
- ▶ Pressure relief valve to prevent overloading
- ▶ Extremely easy to manoeuvre
- ▶ 2900mm maximum lift height
- ▶ Floor level minimum hook height
- ▶ 5 variable capacity settings
- ▶ 5 position telescopic jib
- ▶ CE Marked
- ▶ Counterbalance allows total jib access - ideal when loading millers, lathes and other machine tools

NOTE THIS CRANE IS SUPPLIED COMPLETE WITH COUNTERBALANCE UNLIKE OTHERS ON THE MARKET WHERE YOU NEED TO ADD YOUR OWN!!

Net weight	500kg

Powered Cranes

WARRIOR Powered Counterbalanced Crane

The **WARRIOR** Pedestrian Controlled Powered Counterbalanced floor crane is an ideal machine to assist in the access of those hard to reach areas where traditional outrigger cranes cannot reach. The **WARRIOR** WRPDCB700 is a counterbalanced floor crane with added power for handling and transporting heavy loads up to 700kg.

This electric floor crane has a compact 763mm width and powered drive so it can be easily manoeuvred into position on congested sites. Ideal for handling industrial equipment, stacks of building materials and unitized glazing when fitted with a vacuum lifter, the **WARRIOR** WRPDCB700 has supportive struts on its base and can travel at a speed of up to 2.5km/h with a load.

With a convenient on-board battery charger, the **WARRIOR** WRPDCB700's powered boom can move up and down as well as telescoping in and out for precisely lifting loads from the ground up. This floor crane takes the strain out of lifting to a height of 3.3metres and has a maximum reach of 2.3 meters (at 200kg capacity).

- ▶ Capacity: 700kg (minimum extension)/200kg (maximum extension)
- ▶ Dimensions: 1670mm (h) x 763mm (w)
- ▶ Maximum hook height: 3300mm
- ▶ Maximum reach: 2322mm
- ▶ Boom type: hydraulic with manual third section
- ▶ Weight of crane: 650kg
- ▶ 24V/70AH battery
- ▶ Integral battery charger
- ▶ Maximum speed with load: 2.5km/h
- ▶ Ref: WRPDCB700

WARRIOR CE

Powered Sack Trucks

Driven by innovation, these innovative products were developed to take away the strain from manual handling tasks, often experienced in both domestic and commercial environments. These **WARRIOR** electric powered sack trucks are amazingly versatile in application and have been designed and developed in the UK

PERFORMANCE

- Tuned for optimum efficiency, and safely maintains speeds when passing from a good surface to uneven ground or even up and down an incline.
- Ergonomically designed handset can be used by fingertip or gripped easily when wearing gloves.
- Battery life is protected by the electronic controller, together with a battery state meter.

DURABILITY

- Design and development has been over a number of years to ensure service life is beyond expectations.
- Battery over drain protection is available as standard, to ensure maximum battery life.
- WARRIOR GM trucks can be adapted to meet specific applications
- IP rated to allow poor weather use.

Innovative and fresh approach using up to date design methods to solve stone age manual handling problems, alleviating most of the effort in manual handling

WARRIOR GM300 Electric Sack Truck

With up to 300kg transport capacity, this Powerful electric sack truck is built to tackle the most demanding tasks Whether moving products from a van to door or around your premises, this makes the task easier and safer

- ▶ Switch – ergonomically designed for fingers and gloves
- ▶ Forward and reverse drive
- ▶ 2 speeds – for safe and easy transit over smooth and rough terrains
- ▶ Torque assisted to transit position
- ▶ On vehicle charging
- ▶ Poor terrain driving
- ▶ Right and left handed
- ▶ Battery charge monitor
- ▶ Puncture proof tyres
- ▶ Light weight
- ▶ 1 year return to base warranty
- ▶ Indoor and outdoor use
- ▶ Weather protected
- ▶ Adaptive to all types of products
- ▶ Removes user fatigue, not pushing but driving the load
- ▶ Transport up to 300kg

The Handling Equipment Shop

All WARRIOR products are backed up with our No Nonsense after sales coverage.

We carry a comprehensive stock of parts for all models in our portfolio.

Our warranty is 12 months on site and where possible we use our own engineers to perform repairs and maintenance.

Enquire with your WARRIOR dealer for any service & maintenance requirements.

All our products have a full 12 months ON SITE parts & labour warranty
