

FLOORTEC 570 M / 592 M

Sweep away dust, dirt and debris

The hopper can stay in an open position so it is easy to throw big items or empty a rubbish bin into the hopper

Both the main broom and the side brooms can be adjusted without using tools

The handle can be adjusted to fit the operator height (3 positions)

Fast and easy maintenance of indoor floors and outdoor areas

There is a simple and effective solution when you want to present your premises in the best possible way. Just push the FLOORTEC walk-behind sweepers 570 M / 592 M, and you will see how quickly indoor floors and outside areas can be cleaned. Working up to 6 times faster than a manual broom, the rotating brooms will pick up and remove dust, dirt, debris sand, nails, bolts, cigarettes, etc.

Due to its high performance and ease of use, these manual sweepers are ideal for applications such as cleaning in small factories, car parks, malls, schools, workshops, bus/railway stations as well as outside office buildings.

Your cleaning of hard surfaces will be quick, simple, and also quite noiseless since the sweepers work without a motor. The main brooms are rotated at high speed by the gear system on both wheels as you push the machine forward, and the side brooms are belt driven. A solution which will enable cost saving daytime cleaning.

The sweepers are well-suited for limited space or congested areas thanks to their compact design. User comfort is high, including the adjustable soft grip handle, a built-in dust filter, and the large but light hopper equipped with a big carrying handle for easy emptying.

- You will get an outstanding sweeping performance – also when handling large debris – thanks to the direct-throw system
- Non-stop cleaning for a long time: Large 38-litre hopper, which can be kept open for disposal of big items, emptying of garbage bins, etc.
- The sweeper is easy to maneuver with two large non-marking wheels
- User comfort: Dust is handled by the built-in filter
- Rugged and ready for outdoor work: Strong non-corrosive frame makes the sweeper robust
- Very limited need for service: Simple mechanical construction with gear and belt drive. No motor or battery

FLOORTEC 570 M with one side broom – and FLOORTEC 592 M with two side brooms – cover working widths of 70 cm and 92 cm

The hopper remains in place even when the sweeper is stored in an upright position or hung on the wall

Reliability is also our mantra when it comes to service

A Nilfisk machine functions optimally when cared for by regular service and maintenance visits. Therefore we have created the optimal service solution: three levels of service reflecting different requirements and an optional supply of a substitute machine in critical situations.

Service Solutions Standard – Professional maintenance

Your contract encompasses two yearly maintenance visits and 48 hours response time. Breakdown visits and spare parts are billed separately.

Service Solutions Plus – Optimised performance

With the Plus solution you have a firm grip on your maintenance and repair costs while knowing that your performance is never compromised, only optimised.

Service Solutions Premium – Maximised uptime

If uptime is your absolute top priority and key concern, Service Solutions Premium is the best choice. A quarterly maintenance visit is included, and there are no sudden financial surprises.

Adjustable handle (3 positions) →

Large non marking wheel →

No tools required for adjusting the main broom →

Easy storage and transportation →

← Ergonomic adjustable handle with SoftGrip

← Large 38 litre hopper

← Side brooms can individual be adjusted by turning a knob

← Very rugged corrosion proof frame makes this manual sweeper very robust

Technical specifications

Description	Unit	FLOORTEC 570 M	FLOORTEC 592 M
Item number		50000495	50000496
Power source		manual	manual
Productivity rate main broom theoretical/actual	m ² /h	1920/960	1920/960
Productivity rate 1 side broom theoretical/actual	m ² /h	2800/1400	2800/1400
Productivity 2 side brooms theoretical/actual	m ² /h	-	3680/1840
Working width w/right side broom	mm	700	700
Working width w/2 side brooms	mm	-	920
Main broom length	mm	480	480
Hopper volume	l	38	38
Weight	kg	19.5	20
